## NO FREIGHT HOIST

### SPECIAL COUNCIL MEETING

The Council Refused to Allow Several Changes in the Agreement With The Hoist Company and the Whole Affair is Called Off

The city council held a special meeting last evening. Present, the Mayor, Aldermen May, McLeod, Clark, Fraser, Bellamy and Picard. The mayor explained that the meeting was called to discuss the hoist agreement. Mr. Kennedy, on behalf of the company, expressed the opinion that under the new charter the city did not have power to grant an exclusive franchise for the construction of this work. Acting City Solicitor Newell explained that it was probable the city council had not this power unless the hoist company came under the provisions of street railway franchises.

Mr. Kennedy suggested that the difficulty be overcome by the council leasing to the company the part of first street required for the construction of the hoist. In order to do this the council must give notice of their intention to lease the part of the street leased, and if anyone had any objection to the arrangement they could lodge their protest and the matter might be adjusted before the lease was made.

On motion the council resolved itself into committee of the whole, with Alderman May in the chair. The mayor expressed the opinion that this company could not be given a franchise as a street railway on account of the franchise already granted to the Edmonton street railway.

Mr. Wallbridge appeared for Mrs. Cadenhead, a resident on College avenue, on the top of the hill. His client objected to the construction of the road for the hoist on the west side of the street as it would shut off her entrance to her property by a side gate. If moved to the east side of the street it would not interfere. He also claimed that the noise of the hoist might interfere with the quiet of the neighborhood.

The mayor expressed the opinion that if the hoist was built on the west side there would be an action for damages and he would rather abandon the whole thing. Mr. Kennedy said the company was willing to build in the centre of the street. He asked for some slight modifications in the agreement one of which was that the width of the track be increased from 16 to 20 feet. Another was that the company not be required to use all new material, if that which they used were satisfactory to the engineer. These changes were granted. The clause giving the council the right of purchase at the actual value of the plant at the end of five, ten, fifteen or twenty years was amended by striking out the five year term. The company had requested it to be purchased as a going concern, but the council refused.

The clause relating to rates was amended to read that the rates charged should be, for a four ton load, 10c; from four to five tons, 15c; and over five tons 20c, the council reserving the right to reduce these rates by twenty-five per cent if they were at any time considered excessive.

The agreement demanded a bond of \$10,000 for indemnity from the hoist company against any failure on the part of the company to carry out its agreement, or against actions for damages in cases of accidents on the hoist. This was amended to the effect that the bond should be for accidents only, but the council refused to reduce it from \$10,000 to \$5,000. This was the last straw and Mr. Kennedy stated for the company that they could not proceed with such restrictions and requirements and the whole proposition was withdrawn.

## MAN DROPPED DEAD

### CHOKED WHILE EATING SUPPER

William Zapp Fell Dead From His Chair in the B.C. Restaurant Last Night About Eight O'clock—Inquest Deemed Unnecessary.

The east end of the city was startled last evening about 8 o'clock when the news spread that a man had dropped dead in the B.C. restaurant. The man proved to be Wm. Zapp, commonly known as "Big Bill." He had been drinking pretty freely and went into the restaurant for his supper. He started to eat a piece of steak, when a young man at another table looking over, remarked that there was a man who appeared pretty nearly gone; with that Zapp tumbled over from his chair. He had turned black in the face and appeared to be choking. H. M. McLeod, who was in the restaurant, ran for Dr. Hislop, but when he arrived Zapp was dead.

The chief of police was notified and Coroner Strathwaite was summoned. The coroner decided that the deceased had been choked by the piece of meat he was eating. It appears that Knapp had been suffering from some kind of throat trouble for some time. An inquest was deemed unnecessary.

Zapp has been in the country for some time, having worked with Harry Bell for some eight years. Three years ago he was employed by Mr. A. Brick at Peace River. He came down from the north country this spring and has been working about Larose and Bell's stables for a while. He boarded most of the time at the St. Elmo hotel. He had \$100 when he came to the city in the spring, but was without a cent when he died, having borrowed a dollar from a friend in the afternoon and paid the last of it for the supper he never ate.

A thorough search of Zapp's effects failed to throw any light upon who his friends were or where they lived. His only possessions were a knife, a pipe and an empty pocket book. He was a German-American from New York and had spent his life through the western States, British Columbia and lately in the Northwest.

The deceased was a very large and powerful man, of reddish complexion and would be probably about fifty years of age. The remains were given into the charge of Lubbock and Moffat, undertakers. The city will bear the expense of the funeral.

## RECORD WHEAT CROP PROMISED

Reports from all parts of the Canadian West prophesy the largest aggregate wheat crop in the history of the country. In the region where a large amount of new land is annually brought under cultivation, this might well happen, and the annual average per acre steadily declines. There is no indication however that the average yield of the Western fields is growing less. It is calculated that upwards of 4,000,000 acres of land are this year devoted to the production of wheat in Manitoba and the Territories, and should the average of 1901 of 25 bushels per acre be reached the C. P. R. estimate of 100,000,000 bushels as the season's crop will be reached. The present indications are that these calculations will not be far astray.

## A FITTING CELEBRATION

The question of what would be a fitting manner in which to celebrate the inauguration of the Province of Alberta, is coming before the city council at their next meeting. We confidently expect the city will take hold of this matter in a generous and enthusiastic spirit. Provinces are not born every day, Edmonton is the provincial capital, and it is highly important that the demonstration on September 1 be worthy of the city and the province.

We believe that a great many people from the south have only to visit Edmonton upon this auspicious occasion to be convinced that it is the proper place for the permanent capital. An invitation should be issued early to representative men in all parts of the province to attend the celebration.

Invitations should also be issued immediately to the Governor-General, Premier Laurier and other public men to attend, and no effort should be spared, or expense begrudged, to make the initiation of the new province one to be ever remembered by those who spend the day in our city. The occasion is one to be dealt with by the council in a most generous manner, and we believe every ratepayer in the city will support them in a little extravagance upon so memorable and important day.

Let the celebration be such that every small boy in town will remember with pride, in the years of his manhood, that he was present the day his native Alberta became a full-fledged province.

## FACTS FROM THE BUDGET

Hon. W. S. Fielding has been Finance Minister of Canada for over nine years. The service of his critic, Mr. Foster, extended over the eight years from 1888 to 1896.

Mr. Fielding was able to show that in eight of his years at the helm in the Ministry of Finance the net public debt had been increased. Apart from certain adjustments of accounts with the Province of Ontario and Quebec, by \$28,232, or a yearly average of \$34,779. During the present year there will be an addition of probably \$250,000. In effect, therefore, the enormous railway and canal building of the past decade and the marvelously successful effort made to attract settlers have added but a little over a million and a half to the debt burden of the Dominion, while the population has increased fully a million.

Mr. Fielding has so strengthened the national credit by heaping down debt increases that new loans can be secured at very low rates of interest. The actual sum paid in interest on the public debt was only \$8,892,380 in the last fiscal year compared with \$10,645,663 in 1897.

The Government reiterates its intention to adopt a system of maximum and minimum duties, retaining the British preference as a sort of "family concession" below the minimum rate of duty at which foreign goods will come in. A commission of the Cabinet will make inquiry into trade conditions throughout the country and frame the new tariff in time for presentation to Parliament next year.

No important tariff changes were announced. South African wines will

come in at the same rate as French light wines, 25 cents a gallon. A duty will be imposed of 60 cents per 100 pounds on rolled oats. Dry white lead and white lead are more heavily taxed, the former being increased from 5 to 30 per cent, the latter from 25 to 35 per cent. There are several other minor changes.

An effort is to be made to get rid of American silver current in Canada by paying the banks three-eighths of one per cent to collect it. The Finance Department will then ship it back to the United States.

## THE "CITIZEN" PERFORMS

Ottawa Citizen, July 6.—Having secured the new provinces in the North West and made its name infamous up there the Liberal party is now anxious that elections should not be conducted in the new provinces on the "old party lines." That is a bit too thin.

We trust that this contribution to the cause of enlightenment in the regions round about the federal capital will not be permitted to perish as the ephemeral production of the journalist. It is worthy a longer existence. It should be preserved by the art of the picture framer and hang forever in the sanctum of the Citizen in memory of the imagination which was wrecked by its production.

To the Territorial Conservative journals which for months have supplanted the electorate to establish a non-partisan government, pure and undefiled, it will doubtless be refreshing to learn that it is their opponents who fear the issue and themselves who are hungering for war. The Calgary Herald for example has been enumerating the villainies of Alberta Liberals and Liberal journals for favoring a "party line" fight in Alberta and no later than Monday of the present week attacks the Bulletin for its crimes in this regard in the following unmistakable language:—

"The Edmonton Bulletin is resorting to extreme means to arouse those people of the north who prefer a non-partisan government, to a sense of their duty to Frank Oliver and the Dominion Government. \* \* \* Those who have interested themselves in securing a non-partisan government for the new province have displayed a patriotic spirit which Oliver finds is influencing many people in the north, as well as other parts of the country."

While Territorial Conservatives are frantically endeavoring to explain away the Moose Jaw convention, the record of Mr. Haultain and to cast the responsibility for urging a straight party campaign on their opponents, the Opposition mouthpiece in the federal capital is representing to the people of Ontario that the Territorial Conservatives are inviting a party issue and that the Liberals are trying to conduct a non-partisan campaign.

For as it is from truth the distorted statement of the Citizen is of less concern than the significance of the policy involved. While the Alberta Conservatives are endeavoring to win a victory under false colors they are represented to Ontario readers as stalking through the land seeking whom they may devour and while Alberta Liberals are showing a continually increasing desire to fight the Provincial battle in the open they are being represented to Ontario readers as shirking the responsibilities of a "party line" contest.

The purpose of the Citizen is quite apparently to represent that the autonomy bills are so unpopular in the west that the supporters of the Government fear a campaign in which they might become an issue.

## FORTY THOUSAND

## CIGARS MADE EVERY MONTH

The Growth of The Cigar Industry in The City—An Article That is Good Enough to Sell at Home

A visit to the Edmonton cigar factory will easily convince one that quite a few people in this vicinity enjoy a good smoke, and the conviction is confirmed when the genial proprietor, Mr. Harry Shaw, says that his entire output is sold in Edmonton, Strathcona and Fort Saskatchewan. He has not had any travellers out yet for the very good reason that he has not been able to supply the home demand for his popular brands "La Palma" and "La Consequencia."

The Edmonton cigar factory was started by Mr. Shaw four years ago last April, the staff consisting of one man and himself. His business has gradually increased until at the present time the staff consists of eight cigar rollers, four strippers and one packer, and they are continually working overtime to keep somewhere near the increasing demand.

Mr. Shaw's motto has been "One grade only, and that the best." He uses nothing but pure Havana filler, Connecticut binder and Sumatra wrapper, and the result has been that his goods are of such quality as to demand a ready market at home, the people realizing that there is nothing better.

At the present time Mr. Shaw has his entire staff employed in making the La Palma brand which seems to be the most popular, and the demand for which is most difficult to keep up with. He turns out 40,000 cigars every month, yet the public turns them into ashes and calls for more. This cigar factory has become quite an industry in the city and as Edmonton grows it will also enlarge. It is the result of constant and careful attention to business on the part of the proprietor, who has done himself credit in building up this excellent business in town.

## Canada and Japan

The Osaka, Japan, Mainichi, May 3, 1905 says: "No sooner had we heard that the State Legislature of California had passed an anti-Japanese law, than we received the news of the re-enactment of Japanese exclusion laws by British Columbia early in the spring. This paper lost no time in calling the serious attention of the Government to the policy in dealing with this very important matter, appealing at the same time to the goodwill of the people of Great Britain and Canada, but recognizing with them on their utter misunderstanding of our position and the status we are holding among the nations of the world."

"We are now in receipt of a cablegram from our Consul-General at Ottawa that all the laws affecting our people, re-enacted by British Columbia, are disallowed. This great success was no doubt due to the good offices of our representative, and we must congratulate ourselves upon this timely achievement of our desired end. We are assured this success is the evidence of the most friendly and liberal policy of the Canadian government, whose far-sighted and enlightened policy has led them to manifest this spirit of justice and impartiality."

"We must be grateful to the Canadian government for the sake of the future prosperity, of the closer friendship and increasing trade between Canada and Japan. The Canadians will largely benefit themselves in trans-Pacific commerce by adopting a liberal and impartial policy toward their western neighbor across the Pacific. We sincerely hope that the British Columbia government will not re-enact these laws in the future, and in the meantime we hope that our emigrants into that province will be most careful in their actions and manners to avoid any friction or displeasure that might occur by proceeding in large numbers to British Columbia. We appreciate the policy of the Canadian government in regard to the open door in the Pacific Province. Both the Japanese and the Canadians will benefit. We can assure our Canadian friends that our handful of emigrants will never be in a position to deprive the white people of their legitimate field of labor."

"In the meantime we strongly recommend our American friends to adopt the same liberal and friendly policy toward our people as our Canadian friends have done."

## The News in Brief.

The following report has been received from the Japanese army headquarters on Sakhalin island: Our army with much resistance occupied Korsavovsk early on July 8th. The enemy burned the town and returned to positions eight miles north, where they resumed resistance. We dislodged them and are now in pursuit. At Ham on July 8th the enemy retreated to a point 22 miles north of Korsavovsk. We captured two 12 centimetre guns, two 12 pounders and also an amount of ammunition. We suffered no losses.

China's request to be represented in the Washington conference, on the ground that she is vitally interested in its proceedings, has been received by President Roosevelt, and informally transmitted to the belligerents. Whether the president has received the formal replies cannot be learned, but it can be stated that while Russia is inclined to favor the suggestion, Japan will not consent to it. Japan has already made her assurance that Manchuria is to be returned to China. That is one of the principles for which she says she has been fighting. Japan regards herself as fully capable of executing this promise without the assistance of China, and in view of China's inability before the war to cope with Russia in Manchuria, the Japanese Government is unable to see what possible service a Chinese representative would be in the Washington conference. Moreover, Japan has all along taken the position that when peace negotiations were begun they would be conducted directly with Russia. It is altogether unlikely that the Washington Government will press the claim of China.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for additions, &c., Post Office, Calgary," will be received at this office until Monday, August 7, 1905, inquisitively, for additions and alterations to the Post Office, Customs, &c., building at Calgary, N.W.T., according to plans and specifications to be seen at the Department of Public Works, Ottawa, Ont., and at the office of Paul Paradis, Esq., Resident Engineer, Calgary, Alta.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the Order of the Honorable the Minister of Public Works, equal to (10 p.c.) of the amount of the tender, must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender. The Department does not bind itself to accept the lowest or any tender.

By Order, FRED. GELINAS, Secretary.

## AUTONOMY BILLS

## DISCUSSED IN THE SENATE.

Sir McKenzie Bowell Contends that Conservatives Have Always Been the Friends of Separate Schools.

Ottawa, July 12.—Over 700,000 dollars of the supplementary estimates for the year ending June 30 next, were presented to Parliament tonight. Of this \$24,580 are for the North West Territories Government. On the immigration estimates today Mr. Foster opposed the expenditure. Mr. Oliver said that it was his intention to continue a vigorous immigration policy.

The autonomy debate on the Alberta bill opened in the Senate today. The second reading was moved by Senator Scott. Hon. MacKenzie-Bowell replied, saying that Conservatives were always the friends of separate schools and Liberals opposed to them. He moved the six months' bill so that the legal questions could be settled by reference to the Supreme Court and Privy Council. Sir Richard Cartwright followed saying that the more the bills were discussed the more the people were satisfied that the Government did the right thing. It was not a matter of provincial rights.

The supplementary estimates include \$500,000 for new departmental buildings at Ottawa.

## THE NEWS OF THE DAY

### IN CONDENSED DESPATCHES

Brief Items from many sources tell the story of the day's events.

### TERRITORIAL RIFLE MATCHES

Calgary July 13.—P. McNaughton, of Edmonton, won the association match, putting on a score of 58. The other Edmonton men ranged:

11th. W. Bedard.....	47
22nd. J. Carmichael.....	43
27th. J. McKenzie.....	48
30th. W. Pearce.....	46
34th. D. Bissett.....	44

The merchants match was won by R. Young, Elbow, score 58. The Edmonton men were placed:

11th. W. Bedard.....	43
17th. W. Bedard.....	43
18th. A. Cameron.....	42
20th. P. McNaughton.....	42
21st. C. Carmichael.....	40
29th. P. H. Whitlaw.....	35
33rd. D. Bissett.....	31

J. Carmichael of the Edmonton team won the corporation of the city of Calgary match, score 96. Other Edmonton scores were:

7th. W. Bedard.....	92
9th. A. Cameron.....	91
30th. P. McNaughton.....	81
33rd. W. Pearce.....	80

The corporation team match was won by G. F. Commer, of Calgary. J. Carmichael, Edmonton, 2nd.

### RAIL GAMES.

Winnipeg, July 13.—Duluth 3, Winnipeg 2; Fargo 0, Crookston 5, afternoon; Fargo 0, Crookston 3, evening; Grand Forks 9, Superior 1.

### WITTE MAY NEGOTIATE PEACE.

St. Petersburg, July 13.—Russia has abandoned the idea of trying to secure extradition of the mutineers of the Kuzne Potemkin. M. Mitravieff, chief peace plenipotentiary to Washington, has resigned that post on account of ill health. He was, however, unpopular in Russia, and M. de Witte will likely take the position.

### RUCTION IN LONDON.

London, Ont., July 13.—The American flag was torn from where it floated in front of the city hall last night and trampled in the dust by a hundred feet as the result of insulting remarks made by a drunken American visitor to the Orange demonstration. The Americans came over from Michigan 800 strong and during the day carried the stars and stripes about the streets without unfavorable notice. At night they were fraternizing in front of the hotel when some one called out "To hell with Canada. She never showed us yet!" Instantly the flag of the Port Huron lodge was seized, torn from its pole and ripped into shreds. Later the Port Huron Orangemen said they did not resent the incident, as the insult to Canada had been uncalled for.

### CELEBRATION IN BRANDON.

Winnipeg, July 13.—The anniversary of the "Battle of the Boyne" was very generally observed in Canada. From Winnipeg nearly 2000 went to Brandon, where a huge celebration was held and big speeches made amid much music and waving of banners. It is estimated that 16,000 Orangemen had possession of the wheat city all day. There was an immense parade and innumerable bands. In Toronto rain fell in torrents and only 400 turned out to bid defiance to the elements. At Keweenaw 900 were in line.

### BASEBALL

The Capitals covered themselves with glory and victory again yesterday at Fort Saskatchewan. At the end of the second innings the score was 3 to 2 in favor of the Fort but after that the game was never

in doubt, four runs being scored by Edmonton in the third. The play was rather ragged on both sides all through the game. McLachlan, for the Fort, struck out five men, while Vining for the visitors, killed six on the home plate. One player on each side got a base on balls.  
Ten errors were chalked up to the credit, or discredit, of the Fort team, while the Capitals had eight marked against them. Deaton, Rogers and Hunt made two base hits for the visitors. One double play was to the credit of the Fort team, the centre fielder catching a batter out and throwing to first. Sword has two stolen bases to his credit. Deaton's brilliant catch of a fly was worthy of mention, but the game was pretty dull.

The line-up of the teams was as follows:

Fort Saskatchewan		Edmonton	
Sword	c.f.	Bishoprie	
Stevens	s.s.	Deaton	
Walker	2b	Rogers	
D. Simmons	1b	Hunt	
S. Simmons	3b	Maloney	
Atkinson	c	Coston	
Satter	i.f.	Till	
Lamoureux	r.f.	Gilmour	
McLachlan	p	Vining	

Score by Innings as follows:

Ft. Sask.	0	3	0	0	0	0	1	0	4
Edmonton	2	0	4	0	0	3	0	0	9

### Romantically Situated Edmonton

The following interesting extracts are taken from an editorial-letter in the Christian Guardian, the Methodist publication of Toronto:—Edmonton is the most romantically situated Canadian city that I have seen west of Montreal. Built on a great bluff overlooking a glorious curve of the swift Saskatchewan, the first view of the city which one gets as he drives over to it from Strathcona, the present terminus of the C. P.R., is striking indeed. And the view from the bluff itself, where George McDougall stood when he prophesied of the coming city, may be compared with that from the Dufferin Terrace at Quebec and that from the Mount Royal at Montreal. Only at Edmonton there is more of the work of nature and less of the work of man. Far below, curving around the base of the bluff, rolls the rapid and gleaming river, while across it rises the undulating, closely-wooded slopes where the dark green of the spruce and firs is beautifully diversified with the lighter green of poplar and birch and aspen. One would travel many a day and in many a clime, without seeing anything like so delightful a landscape. Certainly nature has been prodigal of her beauty for the behoof of the citizens of Edmonton and their visitors. And the city that is arising on the bluff is worthy of its surroundings. Its main street, grandly wide, flanked on either side by well-stocked and well-kept stores, and full of purely business bustle, is strikingly indicative of the faith of its people in both its present and future. Its well-lit-up banks—the bank of Montreal paid fifteen thousand dollars for the corner lot it so handsomely fills,—its fine business blocks, its commodious churches, its splendid school buildings, all speak of the enterprise, the ambition, the public spirit and the sagacity of its citizens. So do the residential streets, with their handsome and comfortable homes. It is no mushroom city this, but a city bound to grow, and to grow rapidly and solidly, and to large proportions. True, there has been a boom, followed by more or less of a reaction and inflated prices for real estate have led to their necessary result. But that is only temporary, and it remains that the highly-priced lots on the main street are said by those who know to be worth the money. For the future of the city is assured. The Canadian Pacific railway routes it now. Next fall the Canadian Northern railway will run into it, and in a short time it will be in the direct line of the Grand Trunk Pacific. A great river navigable for steamboats of light draft for hundreds of miles, sweeps by it, and already carries its merchandise far to the north. The vast and fertile valley of the Saskatchewan, three hundred miles in one direction, four hundred in another, the potential home of many millions, lies all around it. Coal, excellent coal, crups out of the river bank close beside it. Petroleum gives good indication of its presence not far off. Timber is in the neighborhood. Edmonton is bound to be, Edmonton cannot help being, a great city. What Winnipeg is to the valley of the Red River, Edmonton will be to the valley of the Saskatchewan, and as the valley of the latter is about four times that of the former, it may well be that the development of the younger city may be even more phenomenal in its rapidity and its extent.

A strategic point in the development of the new city and the new province is Alberta College, the youngest of our family of connexional institutions. And it is as strategic for the development of the influence of Methodism upon the city and the province. Not yet two years old, and only one year housed in its own building, it has progressed at such a rate and obtained such a hold upon the confidence, not only of the Methodists, but of the general community, that it has been found necessary to double its capacity, and an addition to the building, which will actually provide for this, is now in process of erection. There were those who thought a couple of years ago that "we were going ahead too fast" in starting a college in Edmonton. Happily their prognostications have turned out entirely wrong. The college building, opened a year ago, proved altogether inadequate. Practically over one hundred and eighty students attended the classes in the different branches and the fees amounted to no less a sum than \$4,650, and paid no less than fifty-three per cent of the expenses. Indeed, the board has not only paid off all interest on the present building, but also one thousand dollars of the principal of the loan made for its construction. The students were drawn, not only from the Methodist constituency, but from the outside

public. Among them were Episcopalians, Presbyterians, Lutherans, and Roman Catholics. And the prospects are very encouraging for next year. So the extension now being rapidly built was determined upon. It will be ready for the reopening in the autumn, and the Principal hopes to be able to build it free of debt. Speaking of the Principal leads me to remark on the good fortune, or rather, good providence, which gave to Methodism in the West and North-West two such educational administrators as Sparling, of Wesley College, Winnipeg, and Riddell, of Alberta College, Edmonton. Dr. Sparling has done a wonderful work for Methodism in his long-continued, tireless and eminently successful efforts to lay broad and deep the foundations of Wesley College, and his name is a household word throughout its constituency. It was a wise choice which summoned J. H. Riddell from his professor's chair at Wesley and laid on him the responsibility, not only of the principalship of Alberta College, but actually of bringing that college into being. He has done nobly. His unselfish devotion, his business-like sagacity, his foresight and his tact have wrought wonders already. And they will do much more, we are very certain. The influence of Alberta College is now very great, but it is impossible to compute what it is going to do, as the years go on, for the people of Alberta generally, for our own young people, and for our rising ministry.

It was my good fortune to spend the greater part of a day behind a fine team of horses, driving through the Saskatchewan Valley. I would not have missed the experience for a good deal. The scenery was magnificent, and put me in mind of the best parts of Ontario or of England. Indeed, it was like driving through a succession of parks, so diversified was the scenery and so picturesque the landscape of mud and oak and wood-land. Fine farms were met at short intervals, where the young wheat showed up richly, and where the soil's productivity was very clearly in evidence. Indeed, as we drove over the rich loam, black as one's hat, of which the very road itself was made, I could not help saying to Principal Riddell, who was driving me, "it seems a pity to have to make such soil as that into roads!" Our past Governor Sir, we drove to Fort Saskatchewan, stopping for lunch at the hospitable country home of Mr. Henry, the college treasurer, who showed us a field of winter wheat where rye and corn mixed with it, and come into ear on the first of June. At Fort Saskatchewan I had an evidence of the way Methodist pioneering is done in Alberta, for Mr. Alridge, the minister and his wife—and he is chairman of district—were leaving their comfortable parsonage, and going to a frontier station new in every sense of the word, to keep house in a tent! Then, crossing the river by ferry at the Fort, more than twenty-two miles from Edmonton, we returned to that city. It was out a small portion of the great valley of the Saskatchewan that I saw, but enough to fill me with enthusiasm at the thought of the future before the Northwest. Given a decade, given a quarter or half a century, how vast will be the changes, and how prodigious the development of that great country.

## INAUGURATION PLANS

The Council of The Board of Trade Appointed a Committee to Confer With The City Council

The council of the board of trade met in the secretary's office yesterday afternoon. The following members were present: Pres. A. B. Campbell, A. T. Cushing, E. C. Pardee, A. C. Fraser, J. M. Turnbull, C. W. Strathby, J. H. Gariepy and J. A. McDougall.

The minutes of last meeting were read. A communication was read from the Minister of the Interior, in answer to a request to have a list of lots not yet taken up published by the land office. The Minister replied that locations were being made so rapidly that any list that could be published would be incorrect and misleading.

A communication from Mr. C. H. Gibson outlined a proposed trip through Scotland to be taken by himself and Mr. Alex. McClay. He wished the assistance of the board of trade in asking the Dominion Government to pay their travelling expenses and to provide Government slides for view exhibitions in holding meetings to advertise the Western country. On motion of Messrs. Fraser and Strathby the secretary was instructed to instruct Mr. Gibson that he might use the board of trade as a reference. A similar request with reference to transportation on C. P. R. was received from Mr. Crafts with reference to a proposed trip through United States. On motion of Messrs. Strathby and Pardee the secretary was requested to write Mr. Crafts a letter stating that he had been instrumental in bringing a number of people into this country and the board would be glad if the C.P.R. would give him transportation for his proposed trip in pursuance of this work.

A communication was read from the railway commission relative to their western trip. On motion of Messrs. McDougall and Gariepy the secretary was instructed to write the town council asking their attention to this communication and suggesting that this might be an opportunity to have the union station difficulty adjusted.

At the last meeting the question of opening up some of the Indian reserves was discussed and the secretary obtained the following information as to the number of Indians on the five reserves nearest the city.

Enoch's band, Stony Plain reserve, 126; Michel's band, Michel's reserve, 96; Alexander's band, Rivier Qui Barre, 189; Joseph's band, Las Ste. Anne, 148; Paul's band, White Horse Lake, 157; making in all 716 Indians on the five reserves. Mr. Fraser stated that this matter had been taken up at the Regina meeting of the associated boards of trade and had been presented to the Department of Indian Affairs at Ottawa.

The question of the inauguration ceremonies was next discussed. It was the general opinion that whatever was done should be done in conjunction with the city council. Several plans for a celebration were discussed. A large meeting in the rink and a parade of different industries, perhaps in conjunction with the Labor day parade were discussed. It was thought best to have the demonstration on September 1st, as on that date we might get the Governor-General and Premier Laurier to attend, after which they could return to Regina for the inauguration there on September 4th.

It was moved by Messrs. Pardee and Gariepy that Messrs. McDougall, Lyons, Cushing and Secretary Fisher be a committee to wait upon the city council to discuss the question of a fitting celebration at the inauguration ceremonies. Carried.

On motion of Messrs. Pardee and Strathby the secretary was instructed to write the town council asking that body to take steps to require contractors to erect a cover over the sidewalk in front of buildings under construction so that there would be no obstruction to people walking on the proper thoroughfare.

The Bible Society reports remarkable sales of the Scriptures in China last year, where the total number of copies circulated was 1,086,670 copies. Of these 34,573 were free grants made for special purposes, leaving the actual sales well over a million copies, though the books are sold much below cost price. This far outstrips all previous records, and is a further indication of the desire the Chinese are manifesting to examine for themselves the Book of the Christian religion.

—An Orange celebration was held in Fort Saskatchewan yesterday. A number of addresses, with the glorious Twelfth as a topic, were delivered. The attendance from the city was not large. Several teams from Strathcona drove down to the accompaniment of the life and drum.

—The caving in of a drain at the north end of Second street nearly caused the loss of two lives. Four men were working in it at the time and two escaped, the other two were caught by the falling earth and had to be dug out. Joe Romeniski came out with a fractured collar bone. He is now at the general hospital and is improving slowly.
